2) When will Part 2 of the RFP be released?

- DSNY expects to release Part 2 of the RFP in approximately the next two months.

3) Are there any resources available for companies that wish to participate in the Commercial Waste Zones program as a subcontractor to connect with companies eligible to respond to Part 2 of the RFP?

- Yes, DSNY has developed a directory for companies that wish to be subcontractors for the CWZ program. This directory allows these companies to briefly list their information and describe their services. The directory can be accessed at this link: <https://www.nyccwznetwork.com/>. Please note that this directory will allow companies that are responding to Part 2 of the CWZ RFP to be made aware of potential companies that are interested in working as subcontractors on the CWZ program. A listing on this website is not an endorsement by DSNY of any of the listed companies.
