

PART 2 OF THE RFP - NYC COMMERCIAL WASTE ZONES

Attachment 13.6 - Waste Management Plan

Question 2, Duplicate Pages

- 2) a. What are the transfer stations, recycling processors, or any other disposal location, processing location, or location of final use or reuse where the Proposer or its Subcontractors intends to send commercial waste collected under this program? If applicable, note the Proposer’s guaranteed disposal capacity (in tons/day or tons/year) and the duration of such intention of use for guaranteed disposal. Include facilities that account for every waste stream collected under this program. Organics processing capacity should align with Proposer’s plans to serve customers that are not designated covered establishments.

Note: Appendix E includes RFEI responses from interested parties that have available existing transfer, processing, beneficial end-use or disposal facilities, or that propose to develop such facilities from within New York City and the region. Proposers may consider arrangements with these facilities and other facilities that did not submit RFEI responses. DSNY does not claim responsibility for the accuracy of the information provided in the RFEI.

Note: Under LL 199, DSNY is required consider as part of the evaluation whether, after considering a solid waste transfer station’s history of compliance with applicable local, state and federal laws, the Proposer’s use of such solid waste transfer station is likely to have an impact on public health or safety.

Name of Facility	Address	Waste Streams	Method of Transport to the Facility	Facility’s Method of Transport to Final Disposal Location, Final Processing Location, or Location of Final Use or Reuse ^A	Zones ^B	Guaranteed Disposal Capacity (Include Units)	Duration of Agreement
<i>Example Facility</i>	<i>123 Alphabet Rd., New York, NY 12345</i>	<i>Refuse</i>	<i>Packer Truck, Roll-on Roll-off Truck</i>	<i>Rail</i>	<i>Upper Manhattan, Bronx West</i>	<i>100 TPD</i>	<i>Until July 2025</i>

A) The Proposer must disclose what method(s) of transportation, if any, the transfer station, recycling processor, or disposal location uses to get the commercial waste disposed there to its final disposal location, final processing location, or location of final use or reuse. Example options include long-haul truck, rail, or barge. If the facility is the final destination for the waste, mark the respond as ‘final destination’.

B) The Proposer must indicate which Zones the waste disposed at the named facility will come from. For example, if the Proposer is applying for Staten Island, Lower Manhattan, and Manhattan Southwest, and will be using this location for waste in Lower Manhattan and Manhattan Southwest, it must write “Lower Manhattan, Manhattan Southwest” in the box.

Note: If additional entries are needed, use a duplicate of this page and append to the plan as needed.
